The Commission approved with modifications the application of the City of Manitowoc, as an electric public utility (MPU) for a New Load Market Tariff (NLMP) Revision, and made the following determinations:

1. The Commission approved MPU's request to remove the "absent NLMP" clause, but included the condition that customers must affirmatively declare that the presence of an NLMP was certainly a factor in their decision to expand, even if not the sole determinant.
2. The Commission approved a modification to MPU's request to lower the minimum incremental new load level to 400 kW, consistent with Madison Gas and Electric's NLMP tariff.
